United Group Limited wins \$100m in rail contracts

Sydney: Diversified services company United Group Limited has won new work in the rail sector worth \$100 million in recent weeks.

UGL Rail has won contracts to supply:

- 315 iron ore wagons to BHP Billiton's operations in the Pilbara, taking the total number of wagons UGL Rail has sold BHP Billiton to more than 2500
- 10 Cv43aci locomotives, with an option for a further 30, to leasing company CFCL Australia for use in bulk and intermodal freight haulage throughout Australia
- 13 sulphuric acid tank wagons to chemical manufacturer Incitec Pivot's export and warehouse operations in Townsville.

United Group managing director and CEO Richard Leupen said the latest contract wins would help the group replenish and grow its order book.

"Demand in all our business sectors remains robust, underpinned by strong investment in the resources and infrastructure sector," Mr Leupen said.

"All United Group's businesses are enjoying high levels of tendering activity, and the company is at preferred tenderer stage on a number of other major contracts."
