UGL awarded contract by Lend Lease Bouygues Joint Venture on \$3 billion NorthConnex Project

Sydney: UGL Limited (ASX: UGL) today announced that it has entered into a four year Alliance Agreement with the Lend Lease Bouygues Joint Venture (LLBJV) on the NorthConnex Project.

NorthConnex is a \$3 billion project by the New South Wales and Federal Governments, Transurban and the M7 Westlink Shareholders to build, operate and maintain a tolled motorway linking the M1 Pacific Highway at Wahroonga to the Hills M2 Motorway at Pennant Hills. The approximate nine kilometre tunnel motorway includes interchanges to the north and south to accommodate connections at either end of the project. When complete it will link Sydney's north to the Orbital network and form part of the National Highway route.

The LLBJV was awarded the design and construction contract to deliver the NorthConnex Project in January 2015. The LLBJV has engaged UGL in a \$476 million Alliance Agreement for the design, procurement, construction and commissioning of the mechanical, electrical, control, fire and communication systems required for the motorway.

UGL CEO Ross Taylor said: "UGL is proud to play a role in delivering the NorthConnex Project which will provide Sydney with a high standard motorway, integrating with the regional transport network. It will result in greater freight efficiency and the easing of traffic congestion in north western Sydney.

"Securing this contract with the LLBJV is reflective of UGL's market leading position in transport infrastructure services. It is a continuation of the services we have delivered to large infrastructure projects across Australia, completing ten of the twelve similar road tunnel projects undertaken over the last twelve years."
